Java

```java
class Solution {
    public String longestWord(String[] words) {

    }
}
```

JavaScript

```javascript
/**
 * @param {string[]} words
 * @return {string}
 */
var longestWord = function(words) {

};
```

C++

```cpp
class Solution {
public:
    string longestWord(vector<string>& words) {

    }
};
```

C#

```csharp
public class Solution {
    public string LongestWord(string[] words) {

    }
}
```
